

Primary French Lesson Plan

Date: Week 1

Teacher:

Class:

EAL/SEN/G&T

Lesson objectives

To start the unit **La Famille** and introduce the nouns in French for family members. O4.2, O4.4, L4.2, L4.3, L4.4

Graded Activities

- Explain aim of the lesson - to introduce the nouns in French for family members.
- Start oral introduction of new language using the '**La Famille 1**' PowerPoint provided in your resources pack. The basic nouns for family members are presented with their appropriate definite article. See support sheet for further details. **NB:** To avoid sensitive family situations a fictitious family has been used. You could substitute with another famous television or historical family if this fits in more suitably with other curriculum areas. There should be plenty of oral re-enforcement with all children participating. See support sheet. 25 mins
- To consolidate the new language, play the family memory matching game in pairs. See support sheet. 15 mins

PLENARY: Can children remember what they have learnt today and can they name the members of the family using the correct definite article? What rule can they deduce about French from what they have learnt today? (That the word in front of the noun changes if the family member is male or female or there is more than one of them).

Resources required

- PowerPoint.
- Family card game.

Suggested consolidation exercises/games/songs

- Draw a family of their choice and label with new words to keep in their French folders as a record of their new language. Possible to use copy of card game and label these images.
