

Handwashing

School Health Team
September 2018

Let's talk about handwashing....

.... because some germs on our hands can make us sick.

We can't see germs because they are...

microscopic

GERMS

are very easy to pass on.

The best way to keep germs away is to wash your hands well, with soap and water.

When should we wash our hands?

Handwashing Song

Tops and bottoms

Don't forget your nails

Are they clean?

No, they're not!

What about your thumbs?

Rinse them under water

Now they're clean,
Squeaky clean!

Clean hands are healthy hands!
