

# The Terrorizing Spider!

It was another typical day in Dr Goo's secret laboratory who was busy once again testing one of his unknown experiments, this time he was focusing on a spider. He had just concocted his third potion, but this one was florescent yellow and absolutely stunk. He gently poured it over the spider, it scurried to a corner in the glass box, with the liquid oozing off its back. Then suddenly, there was a loud BANG!! Smoke filled the room, the Dr Goo frantically waved his hands about trying to clear the air, he could see the spider gradually getting larger and larger. Within seconds the monster (the spider), flew out the laboratory window and began to terrorize the world!

Dr Goo tried to grab the spider but spider was too quick, Dr Goo, knew he had made a terrible mistake. He hurried to his desk to find a potion that would make the spider small again. He picked up a tube marked "Test 3" on it. Inside contained a green, bubbly liquid which smelt like rotten eggs, he pulled out a hamster in a cage. Again, he poured the liquid on the hamster, bubbles filled the air, and guest what! It made the poor hamster crazy! It jumped up and down and turned in circles. "Oops!" said Dr Goo. Next, he reached for a jar which was labelled "Cool" and tried it on his own cat. It did exactly what it said on the jar and made the cat cool. Unexpectedly, the cat stood on his hind legs, then pulled out an electric guitar along with dark black sunglasses and started to play rock music. Dr Goo giggled to himself and knew this was not the solution.

Dr Goo said to himself, "there must be another way!" He quickly took out all of his tools along with every science book he had and got to work on a new remedy. In the middle of his experiment he stopped and thought "How do we kill a normal spider?" "Ha!" "A hoover", "I shall build a hoover to suck up the spider."

So he worked for many hours and created a monstrous hoover bigger than the spider its self. Off, he went in search of the spider, it didn't take him long to find it as there was devastation on the streets, cobwebs hung from monument's. Dr Goo could not believe what he was seeing, the town's people were petrified. Finally, he saw a giant cobweb and there it lay, the spider munching away on a building, what a shock! He aimed the hoover straight at the mammoth spider and pressed the "RED" button, the hoover illuminated and a loud hissing began, gradually sucking up the spider. The spider clung on to its web but the hoover was too powerful and within seconds the spider was gone forever. The crowd cheered, Dr Goo knew he would never do any more spiders test ever again.
