

## First day at vampire camp

There was a little girl who was different to everybody else. Her name is Lola and she is special because she is a vampire half witch. Her mum is a vampire who comes from Africa and her daddy is a wizard who came from South Australia. Lola is seven years old and on her summer holidays. She goes to a wizard school and has to keep secret that she is a vampire.

This summer holidays was different from the last one because she was old enough to go to vampire holiday club. Lola got to stay up terrifyingly late and went to vampire school at bedtime. Lola was nervous about vampire school because it was her first time. Lola had lots of friends at school but she hadn't gone to vampire club before because you have to be seven years old and have an imaginary friend.

Luckily Lola did have an imaginary friend. They are shaped as a skeleton and its got no skin. Its name is Wendy and its Lola's best friend. Mum and dad have said that Lola cant just talk to Wendy at holiday club and has to talk to other Vampires.

On the first night lola was very tired because she was used to going to bed at this time. Mum drives an invisible car that dad has put a spell on, she drives Lola to Vampire club. When she gets there Lola feels shaky and mum pushes her in through the big doors.

Once she is inside she sees lots of vampires and decides to go and a vampire drink. She looks at the red drink and thinks its delicious. A tall ugly boy runs over to say hi. Lola decides to ask him his name and make him her first friend. Her new friend is impressed that she has an invisible car and that her dad is a wizard. Lola relaxes and feels much better about vampire club. Her new friend eventually remembers to tell her his name. His name is count Dracula which Lola thought is very unusual name. Lola and count Dracula decide to go and see their cabin. They are excited not to go to sleep and to stay up all night like grown up vampires. Count Dracula says "I cant believe we can stay up all night" he turned around and Lola and Wendy were asleep like a comfy fox in the corner.
