

## **Ben's first day at school.**

It was Ben's first day at BIG school, he was so excited. Mummy woke him up bright and early to tell him it was time to get dressed for big school.

Ben and his mum arrived in the car at school early, it was finally time for Ben to meet his new teacher. Mr Hart was tall with a big beard and an even bigger smile, he showed Ben a huge toy rocket that he could climb into.

Ben waved goodbye to Mummy as he entered the rocket. There were loads of buttons and Ben accidently pressed a button that then sent him to space!

Ben was terrified but then he suddenly arrived at the moon, he had no idea how to get back to earth before home time. Ben decided that he needed to be brave, he put on a space suit and got ready to go exploring.

As Ben stepped out on to the moon he felt hungry so went in search of food. There was no food to be found on the moon so Ben returned to the rocket, he thought to himself "I really need to get home because Mummy is going to be looking for me". Ben started pressing other buttons on the rocket, he found one that shook the rocket and he found one that created anti-gravity inside the rocket. Ben then pressed the big red button and it sent him straight back to earth, he was happy. Ben arrived just before home time.

As Ben left the rocket he saw his Mum at the classroom door waving, he ran over and gave her a big hug. Mummy said "did you have a good first day Ben?"

Ben replied "I had an AWESOME day Mum, but I'm glad to go home now."
