Would you prefer to live in a hot or cold place?

Introducing children to the basic concept of climate zones and mapping out hot and cold places globally. Looking at features in the North and South Poles and Kenya. Comparing weather and features in the local area. Learning the four compass points. Learning the names and locating the continents of our world.

Science

Uses of Everyday Materials

'Uses of everyday materials' takes children through six lessons where they learn how to: identify and compare the suitability of a variety of everyday materials, including wood, metal, plastic, glass, brick, rock, paper and cardboard for particular uses. They also learn how to find out how the shapes of solid objects made from some materials can be changed by squashing, bending, twisting and stretching.
