

Reception Autumn newsletter

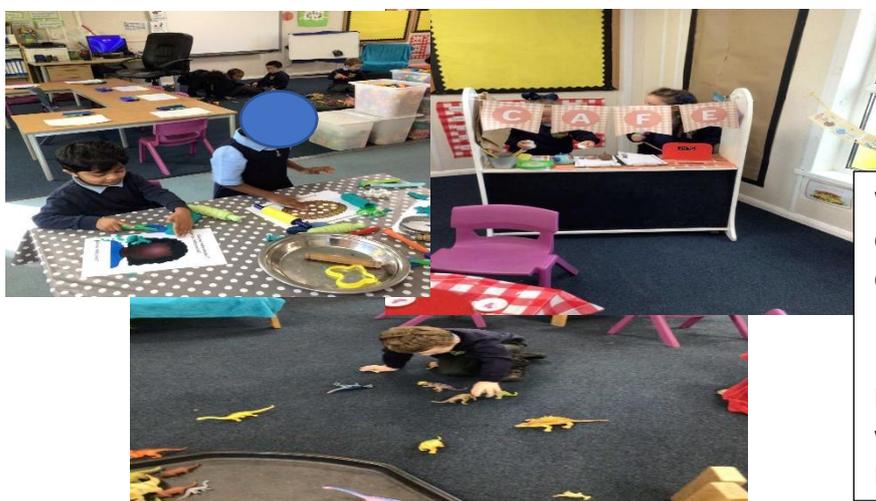

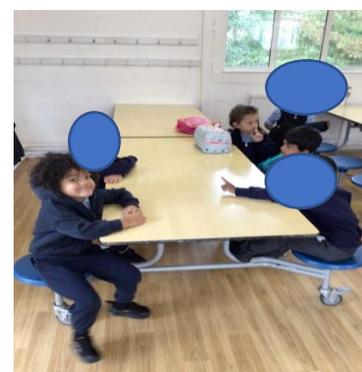

In Reception, we have been talking about how we feel. We have discussed what makes us happy and what makes us sad. To understand our feelings better we have been reading about the colour monster and connecting these feelings to the zones of regulation. We have been busy making our own monsters using different materials and we also created our own biscuit monsters which were yummy.

In Reception, we have been working on copying and writing our names. Learning the classroom rules and listening to the adults.

We have been learning our new school routines and been to the dinner hall for lunch.

We have been making new friends and exploring the classroom and all the different activities.

In this term, we will be exploring the wonderful world of patterns, celebrating Diwali and learning about autumn.
